

ABOUT US

Based out of Central New Jersey, Brakes & Briskets delivers premium wood-smoked craft BBQ for public events, as well as private and corporate catering. We debuted in 2021 focused on the private market and have experienced rapid growth since expanding to public events in 2023.

REDEFINING CARS & BBQ

Specializing in large-scale automotive events, Brakes & Briskets has established a reliable reputation for customer satisfaction and effortlessly meeting high demand, often as the exclusive vendor. Our distinctive presence, unique menu, on-site meat cutting, and culinary excellence promise to elevate your event.

HOW DO WE SMOKE THE COMPETITION?

Few restaurants and caterers offer wood-smoked BBQ as time constraints and lack of suitable facilities are roadblocks to managing a 12-14 hour fire.

Fueled by a custom-built classic stick-burning offset smoker, our BBQ is infused with a curated blend of rubs (fondly named "brake dust") and seasoned wood, yielding a flavor and texture that's simply unrivaled. Through our signature low and slow technique, we craft an irresistible bark and smoke ring that speaks volumes.
